THE STORY BEHIND THE COMPANY

Isabey Interiors is an award-winning design agency and at the core of every Isabey Interiors concept is the Intention of Design. The Intention of Design sets the foundation central to the wants and needs of the inhabitants. The Intention of Design is about your project’s purpose for connectivity, health, sustainability, and aesthetics.

Isabey Interiors is recognized as a change leader in our industry and are positioned for expansion across North America. We have recently opened a Vancouver division and are planning to open a Toronto office by Spring 2024. Additionally, we design internationally in places like Hawaii, California and Jackson Hole.

With Isabey Interiors you will experience the boutique approach of client service with the depth of a multi-talented, highly accredited group of design and building professionals. We collaborate to create functional spaces with leading edge design, always with your budget in mind.

*We are a purposeful design company...*

*Our clients count on us for decisive answers and assertive problem solving. They have come to expect, and we demand of ourselves, the excellence to provide knowledgeable and opinionated responses to all of their design needs.*

leadership  
TRISHA ISABEY

FOUNDER AND CEO

Trisha Isabey is the Founder and CEO of the multiple award-winning design firm, Isabey Interiors. For over a decade this Kelowna and Vancouver based design firm has been known for creating thoughtfully curated interiors that are both personal, while also maximizing livability. The Isabey Interiors design team offers a diverse range of mid to high-end design services throughout North America.

Trisha’s background as a professional stockbroker and financial planner made way for a career in interior design – not a huge stretch, given that her business acumen was matched only by her love of design. After more than a decade in the investment industry, she became an interior designer and founded her Kelowna-based design firm. Trisha has successfully grown the team over the last decade, Isabey Interiors is now ranked the largest interior design firm in British Columbia.

Isabey Interiors has been awarded by the Canadian Home Builders Association across Canada for a multitude of excellence in design awards, including receiving Designer of the Year twice. Trisha has expanded Isabey Interiors into a collective of businesses with the addition of Furnish by Isabey Interiors, a furniture and home decor store. This addition brings the design process full-circle, by servicing the entire project, from concept of construction drawings, all-encompassing design and complete furniture and decor packages.

Trisha continues to mentor her growing design team and seeks out interesting projects across North America that will challenge the skill and range of her team. When not at work you can find this busy mom of two involved with supporting local charities, demonstrating her love for fashion, and finding time to enjoy the beautiful Kelowna landscape around her.

*At the core of every Isabey Interiors concept is the Intention of Design.*

WHAT ARE THE RIGHT PARTS

*Think of your design as an orchestra, where each individual member plays a pivotal role in bringing the score to life.*

*A design project operates much in the same way with the goal of being in perfect harmony. Like any good piece of music you need the right parts...*

— ISABEY INTERIORS

This is the time to *visualize* your space with true to life 3D renderings including the selection of all interior and exterior finishes.

We help you *conceptualize* your ideas into reality.

We provide everything from layout design, 3D renderings to millwork and construction drawings.

— FURNISH by ISABEY

*Finalize* - We offer carefully curated furniture and styling selections and are with you until the final painting is hung and that special chair is in place with easy access to everything home at *Furnish* by Isabey Interiors.

*The Intention of Design sets the foundation central to the wants and needs of the inhabitants.  
It's about your project's purpose for connectivity, health, sustainability, and aesthetics.  
Isabey Interiors makes your intention theirs.*

# isabey INTERIORS

THE INTENTION OF DESIGN

Isabey Interiors is an award-winning design company based in Kelowna BC, specializing in both luxury residential and commercial designs. That is what we do, but not who we are. We are a team of individuals who care about our projects. We approach each design with the same objective - to ensure our clients' needs are met, and to do what we can to make it an enjoyable process. Your project should reflect your needs and who you are - that is what will make you fall in love with your space. There are notable differences in working with Isabey Interiors. You will work with more than one designer on a home renovation project, new home design or commercial space. The entire process is considered at the very beginning - landscape design, furniture planning and more. This will provide you with the best result for your project.
